

Coupa eProcurement for Quickbooks Customers

Pre-built integration for the world's #1 accounting system for SMBs

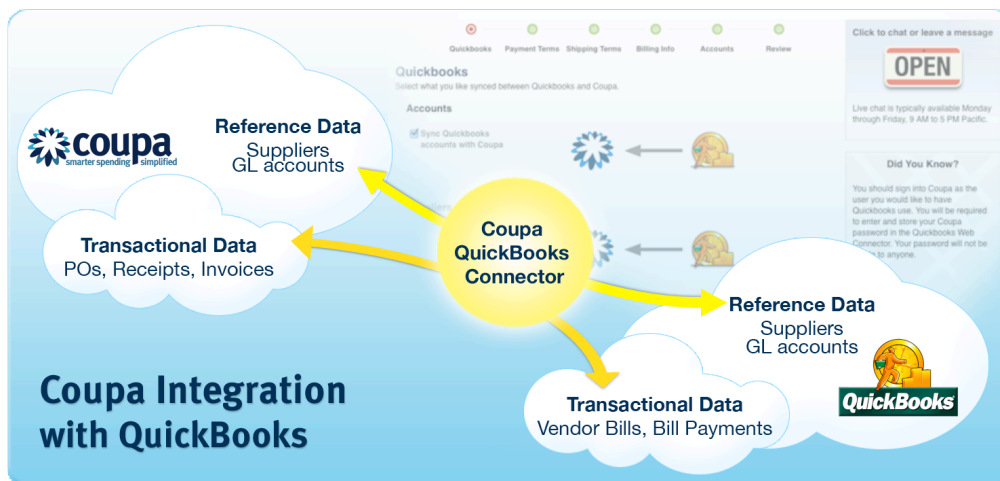

While Quickbooks is the financial system of your small to medium sized business, for complete control of your company's purchasing, you need an advanced and intuitive solution for your employees. Coupa helps companies spend smarter and save money through efficiency and innovation, and comes pre-integrated to Quickbooks, Quickbooks Pro and Quickbooks Enterprise.

- Employees use Coupa's simple purchase request process that captures all the key information. While so simple to enter in your request, Coupa also supports the features of the most advanced eProcurement systems such as catalog items, PunchOut, web forms and Coupa's unique iRequest to buy from leading e-commerce vendors.
- Requests are routed to appropriate managers and finance for approval, which can be done in Coupa, directly from email, and even popular mobile devices like the Blackberry and iPhone.
- Approved requests are automatically converted to orders and dispatched to suppliers, saving significant time and money.
- With the order and receiving information in Coupa, gather supplier invoices and let Coupa automatically match and only approve appropriate invoices.

Out-Of-The-Box Integration

For Quickbooks users, Coupa has passed the certified integration testing process.

- Use Coupa Quickstart to turn on the Coupa-Quickbooks integration. Within minutes, your Quickbooks and Coupa are in sync.
- Quickbooks vendors and accounts flow to Coupa seamlessly, including all updates.
- Approved invoices in Coupa transfer to Quickbooks as vendor bills, saving any cost of rekeying and ensures the right Quickbooks accounts are associated with each bill.

Key Features

- Existing Quickbooks customers can get started with Coupa in minutes!
- Complete employee purchase requisition creation, approvals, purchase orders and invoice capture in Coupa.
- Invoices sync automatically from Coupa to Quickbooks – no rekeying, no errors.
- All important information, such as your vendors and accounts are kept in sync.

Key Benefits

- Allows complete automation of the procure-to-pay business process
- Supports real-time out-of-the-box integration with your existing Quickbooks system
- Eliminates time-consuming manual processes
- No technical expertise required
- Full handing of any issues, with notifications sent on how to correct any problems.
- Works with Quickbooks, Quickbooks Pro and Quickbooks Enterprise.
