

The 5 Pillars of Touchless P2P

Adopt these five pillars to automate your P2P processes and step-change your ability to manage your business spend.

1

Alignment

Partner and collaborate across your key functional areas, including sourcing, purchasing, warehouse/receiving, and payments/treasury.

2

Data

Ensure the right data is in the right place with the right efficacy and linked across all your systems, from sourcing to purchasing to accounting and finance.

3

Process

Implement well-designed processes across functional groups that align with how your business is organized.

4

Culture

Develop a strong culture so that your people understand the importance of touchless P2P efforts and the impacts they have on upstream and downstream processes.

5

Technology

Get the right platform enabled with data and systems that can talk to each other.

The Path to Touchless P2P Can Start Today

Develop a touchless P2P experience that enables better visibility, operational efficiency, cost reduction, and more. We can help you gain control over your P2P to drive down costs and provide ongoing value to your company.
