

# COUPA ADVANTAGE

Turnkey Savings from Trusted Suppliers

"Coupa Advantage offered a turnkey solution for some of our key categories that immediately provided catalog content and drew users to the program. This helped drive adoption in global markets and saved us \$320k a year."

- Mark Arrigotti, Head of Global Procurement, Uber

A typical company has too many tail spend suppliers and either over invests in managing these or chooses not to manage them altogether. As a result, companies struggle to monitor and control suppliers, waste time managing small dollar contracts, and miss savings opportunities on one-off transactions.

Coupa Advantage leverages the scale of the Coupa community to provide vetted suppliers with pre-negotiated contracts out-of-the-box on the Coupa Platform to help companies efficiently optimize tail spend. Companies benefit from instantly available catalogs, access to trusted suppliers across 60 categories, and deeper savings driven by the purchasing power of \$5T+ of community spend.
