Coupa for Expense Management

Coupa Expense helps companies of any size capture, manage, validate and analyze T&E spend across the organization. Drive value beyond basic expense processing with a comprehensive, seamlessly integrated solution. Advanced configurations and an intuitive user experience creates an effortless expense management experience for both employees and finance teams.

Enforce End-to-End Compliance

Capture all T&E spend — both before and after expenses are incurred — to control costs and reduce spend leakages wherever opportunities exist.

Maximize Employee Efficiency

Streamline and integrate manual expense reporting and processing workflows to give your employees and AP team more time to focus on the initiatives that matter to your business.

Drive More T&E Savings

Community.ai analyzes $3T+ of anonymized spend data to provide program KPI benchmarks and tailored prescriptions for even greater savings and efficiency.
