

Market Leading Innovation

Coupa's Autonomous Spend Management network — powered by AI agents — will reinvent how trade is conducted. We're driving growth through game-changing innovations that no other vendor in the industry can match, leveraging the world's largest spend dataset to help you fuel profitability like never before.

Here's how our top four R42 innovations will give you a competitive advantage:

1

Smart Intake & Orchestration

We've redefined procurement for both novice and expert users alike while offering a seamless, intuitive experience for everyone.

Unlike other intake only providers, Coupa has robust backend capabilities that procurement professionals depend on, allowing you to eliminate your point solutions for one seamless and efficient intake-to-procurement process. This unified approach not only simplifies operations today but also provides the flexibility and scalability your business needs to grow confidently.

2

Coupa Navi™ Agents

New and upgraded Coupa Navi™ agents to deliver extraordinary user experiences that make work easier.

In May we are releasing these Navi™ agents To General Availability:

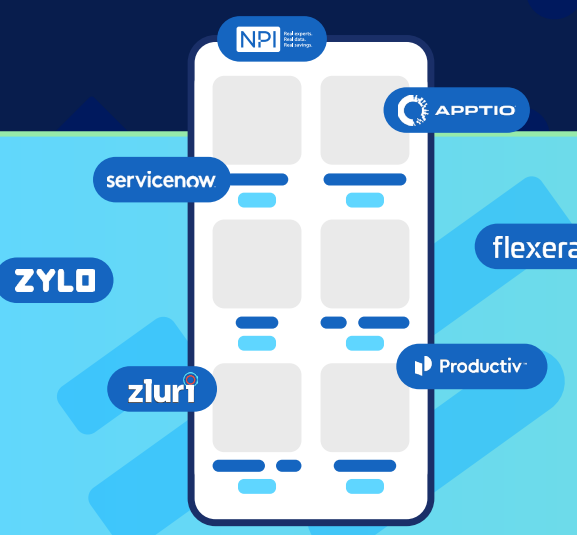

- > **Navi™ Document Discovery Agent** which helps you to find and approve documents faster than ever.
- > **Navi™ Operational Reporting Agent** which generates custom data table views tailored to specific user needs using just a few simple words.
- > **Navi™ Knowledge Agent** provides instant answers based on your company's buying policies.

And these agents will be in Limited Availability:

- > **Navi™ Analytics Agent** which provides Coupa Analytics customers with faster data analysis.
- > **Navi™ Supply Chain Modeling Agent** empowers teams to make faster, more informed decisions with side-by-side scenario comparisons and intelligent insights that pinpoint key drivers behind KPI changes.

3

Bring Your Own Agent

Add AI Agents from Coupa's App Marketplace ecosystem, or bring your own, providing a tailored experience that aligns with your unique business needs.

While OTHER agents are more rigid and limited, no other vendor offers a robust app marketplace of third-party AI agents alongside Coupa's own in a way that's so tailored to your business needs.

4

Inventory Collaboration

By empowering supplier-managed inventory, we're helping businesses improve inventory turns and reduce obsolescence, all with unmatched precision and collaboration.

Unlike the fragmented inventory visibility offered by competitors, we're optimizing working capital across multiple supplier locations.

Coupa's innovation isn't just about keeping up; it's about setting the pace. Compared to the competition, our innovation speaks for itself:

Accelerate your growth and drive competitive advantage with a leader that delivers fast, powerful solutions.

The future is NOW, and it's powered by Coupa
