Only 3% are using AI to benchmark. 46% are unsure or don’t benchmark, and lack of clarity of use cases.

We have yet to seriously understand the opportunities. Let’s look spend under management and benchmarking.

Three Tips to Drive Real Results in S2P

1. Most people think Big Data and AI will impact their role over the next 5 years. The main barriers are lack of access to budget and Big Data and AI programs fully implemented.

3. About half of respondents are planning to have Big Data and AI programs in place, but very few organizations are piloting Big Data and AI solutions in spend management today.

5. Most people think Big Data and AI will impact their role over the next 5 years.
