

# Unlock hidden yield and improve liquidity by breaking down internal silos

Gain more value with Coupa's Business Spend Management platform, the only comprehensive solution that provides a complete view of company cash and spend from sourcing to settlement – across treasury, finance, procurement, and supply chain.

Coupa helps organizations strengthen their financial position by:

**Discover untapped yield by gaining visibility into spend activities across the business.** Take advantage of early payment discount terms, pay later options, and various payment choices to increase effective yield.

**Make better informed, data-driven forecasting decisions with full transparency of company cash and spend.** Companies can prepare for disruption and growth with more accurate forecasting based on seamlessly integrated spend data from across the organization.

**Become a strategic advisor to the business by streamlining cash management processes.** Remove manual tasks to effortlessly gain more cash visibility across the business. Focus on more strategic and impactful initiatives with the newfound time and capacity, and deliver increased value to the business.

**Start gaining the benefits today, contact us for more details.**
